Samuel C Hampsher-Monk
Valencia Pipe Company

Dear Mr. Hampsher-Monk,

The Kansas Department of Health and Environment (KDHE) has received your tank designs. We have completed our evaluation for the following Valencia septic tanks:

- 1,000 Gallon Model Single Compartment Septic Tank (87-41718)
- 1,000 Gallon Model Two Compartment Septic Tank (87-41720)
- 1,500 Gallon Model Single Compartment Septic Tank (87-41758)
- 1,500 Gallon Model Two Compartment Septic Tank (87-41760).

We have determined that the septic tank designs submitted are compliant. Our evaluation and the certification by Mr. Barrett Cameron Crook, P.E., Kansas license #24318, confirm that the design of your tanks meets State of Kansas Requirements listed in *Minimum Standards for Design and Construction of On-site Wastewater Systems*, Bulletin 4-2. Please retain this letter as documentation that the above septic tanks are approved by KDHE for use in Kansas. Use of the septic tanks may also require local approval. Please note that any changes in design will require re-approval by KDHE.

We encourage you to provide training to contractors installing these tanks to ensure proper installation, maintenance, and continued tank integrity. Thank you for your cooperation during the certification process.

If you have any questions regarding this letter, please contact Adrienne Miller at (785) 296-7165 or e-mail her at Adrienne.miller@ks.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Beezhold". The signature is stylized and somewhat cursive.

Michael Beezhold
Chief, Watershed Management Section
