Subject: Product Registration, 1000 Gall Two Compartment Septic Tank Yellow (Model: 87-714200)

Dear Mr. Butler:

The Division of Environmental Health has completed a review of a registration application for the subject products. This information was submitted pursuant to Section 7 of the Subsurface Wastewater Disposal Rules for registration for use in Maine.

The 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420) tank consists of a one-piece high-density polyethylene tank. The 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420) tank has a 1,000-gallon capacity when used as a single- or dual-compartment septic tank. Risers are available for the 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420).

Pursuant to Section 7 of the Rules, a product must be based upon sound engineering principles and can be expected to provide the same level of protection to public health and the environment as offered by the authorized products presently authorized by the Department for use in these Rules. According to the information you provided, the 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420) received an IAPMO R&T listing current as of April 2024.

Based on the information submitted, the Division has determined that Valencia Pipe Company's 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420) is acceptable for use in the State of Maine, provided that it is installed, operated, and maintained in conformance with the manufacturer's directions.

Because installation and owner maintenance have a significant effect on the working order of onsite sewage disposal systems, including their components, the Division makes no representation or guarantee as to the efficiency and/or operation of the 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420). Further, registration of this product for use in the State of Maine does not represent Division preference or recommendation for this product over similar or competing products.

If you have any questions, please feel free to contact me at (207) 287-5695.

Sincerely,

Alexander L. Pugh

Subject: Product Registration, 1000 Gall Single Compartment Septic Tank Yellow (Model: 87-41718)

Dear Mr. Butler:

The Division of Environmental Health has completed a review of a registration application for the subject products. This information was submitted pursuant to Section 7 of the Subsurface Wastewater Disposal Rules for registration for use in Maine.

The 1000 Gallon Single Compartment Septic Tank Yellow (Model 87-41718) tank consists of a one-piece high-density polyethylene tank. The 1000 Gallon Single Compartment Septic Tank Yellow (Model 87-41718) tank has a 1,000-gallon capacity when used as a single. Risers are available for the 1000 Gallon Single Compartment Septic Tank Yellow (Model 87-71420).

Pursuant to Section 7 of the Rules, a product must be based upon sound engineering principles and can be expected to provide the same level of protection to public health and the environment as offered by the authorized products presently authorized by the Department for use in these Rules. According to the information you provided, the 1000 Gallon Single Compartment Septic Tank Yellow (Model 87-41718) received an IAPMO R&T listing current as of April 2024.

Based on the information submitted, the Division has determined that Valencia Pipe Company's 1000 Gallon Two Compartment Septic Tank Yellow (Model 87-71420) is acceptable for use in the State of Maine, provided that it is installed, operated, and maintained in conformance with the manufacturer's directions.

Because installation and owner maintenance have a significant effect on the working order of onsite sewage disposal systems, including their components, the Division makes no representation or guarantee as to the efficiency and/or operation of the 1000 Gallon Single Compartment Septic Tank Yellow (Model 87-71420). Further, registration of this product for use in the State of Maine does not represent Division preference or recommendation for this product over similar or competing products.

If you have any questions, please feel free to contact me at (207) 287-5695.

Sincerely,

Alexander L. Pugh

Subject: Product Registration, 1500-Gallon 87-41758

Dear Mr. Butler:

The Division of Environmental Health has completed a review of a registration application for the subject products. This information was submitted pursuant to Section 6.HH of the Subsurface Wastewater Disposal Rules for registration for use in Maine.

The 1500-Gallon prefabricated tank is a single-compartment plastic Septic Tank, featuring a ribbed design for in ground use. It is constructed of UV stabilized BPA free HDPE (High density polyethylene, rotomolded in the USA with polyethylene resin. It is a one-piece tank with no seams and may be installed with a 6-36" cover. It contains two 20" manholes with covers and 4" inlet/outlet tees.

Pursuant to Section 6.HH.3 of the Rules, a product must be based upon sound engineering principles and can be expected to provide the same level of protection to public health and the environment as offered by the authorized products presently authorized by the Department for use in these Rules. According to the information you provided, the **87-41758** received a IAPMO/ ANSI Z1000-2019 and CSA B66-2021 certification.

Based on the information submitted, the Division has determined that the **87-41758** tank is acceptable for use in the State of Maine, provided that it is installed, operated, and maintained in conformance with the manufacturer's directions.

Because installation and owner maintenance have a significant effect on the working order of onsite sewage disposal systems, including their components, the Division makes no representation or guarantee as to the efficiency and/or operation of the **87-41758** tank. Further, registration of this product for use in the State of Maine does not represent Division preference or recommendation for this product over similar or competing products.

If you have any questions, please feel free to contact me at (207) 287-5695.

Sincerely,

Alexander L. Pugh
