

Statement From New Hampshire Department of Environmental Services

Via email, May 2024

“The NHDES Subsurface Systems Bureau does not maintain a list of approved conventional septic system products that may be used in the state, including but not limited to septic tanks.

All manufacturers of conventional septic tanks must meet the specifications for septic tanks that are provided for in the New Hampshire Code of Administrative Rules Chapter Env-Wq 1000 in order for their product to be used in the state.

Please do not hesitate to contact me if you have any questions.”

Kind Regards,

Scott A. Hazelton
Administrator
Subsurface Systems Bureau
Water Division, NH Department of Environmental Services
